                                          <div class="pyramid3d">
                                                 <div class="triangle side1"></div>
                                                 <div class="triangle side2"></div>
                                                 <div class="triangle side3"></div>
                                                 <div class="triangle side4"></div>
                                          </div>
                                   </div>
                            </h1>
                            <h3 style='clear: both' class="subhead">
                                   <a>SPRING-BOOT</a> Web App
                            </h3>
                            As requested by management, this is my final
                                   product stage, demonstrating the automated, integrated,
and
                                   deployed spring-boot web application.
                            This is an environment where the application is
                                   hosted and accessed by users. The following were used in its
                                   development:
                            <a>Eclipse</a>
                                   <a>GitHub</a>
                                   <a>Jenkins</a>
                                   <a>AWS EC2/ Virtual machine</a>
```

# Feel free to contact Jayanth with any new requests or upgrades to this product!

```
